

Within the framework of his first contact with the structures under guardianship, the Minister of Water and Mining (MEM), made, on Thursday, May 17th, 2018, a working visit to Benin Hydrocarbons Corporation (SOBEH).

This visit which occur at SOBEH, allowed the Minister to realize personally the working environment of this young Company and to notice its willings and difficulties and especially, the draft plan of development which the latter intends to implement in short and medium times.

The MEM handle in particular this occasion to see the place where the data are stocked by SOBEH and, by means of a presentation(display), to get an idea on their names, their number and the various types of their storage media.

Finally, His Excellency Mr Samou SEIDOU ADAMBI, formulated, with regard to the found reports, the very relevant recommendations not only linked to the administrative and financial management, but especially to training(formation) of executive workers. This training have to be ambitious and necessary in order to develop the Hydrocarbons sector in Benin.
